

## Egg & Manure Belt Welders

- **Durable** - Designed for harsh & demanding environments
  - Easy to use - Set timer, push start, and weld
- **Lightweight** - Under six pounds, less than half the weight of comparable systems
  - **Portable** - Integrated case handle

## Rugged & Reliable

- **Military Grade Case** - Crush proof with internal shock absorbers to reduce wear and protect from accidental drops.
- **Sealed System** - Corrosive Airborne particles cannot enter internal workings
  - **Controlled Welds** - Take less than two seconds
  - **Consistency** - Adjustable timer offers high level of weld repeatability
  - **Smart Circuit Design** - Protects against errors and takes action to prevent damage

## Interchangeable Tips

- **High Grade Titanium Alloy** - Increases accuracy and longevity
- **Tip Variety** - Manure belts, solid egg belts and woven egg belts
- **Quality Tested** - On all brands and thickness of standard belts
  - **Fast Change** - Only takes seconds to change the tip

## Included with System

- **P100R Power Supply** with integrated handle
  - 6' Power Cable US Standard
- **G100 Ultrasonic Handgun** with 6' Cable
  - Two wrenches for Tip changing
- User Manual with Troubleshooting Guide (English & Spanish)

# Model P100R
